#### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- ✓ The dependency numeral "2" (claim 8, line 1) has been changed to --1--.

#### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: It is agreed that the Applicant's declaration pursuant to 37 CFR 1.68 was filed pursuant to Rule 131 as is clear from its contents is efficient to overcome the Schwider reference. Therefore, the Schwider reference is inapplicable. It is also agreed that neither O'Meara, nor Hutchin, nor Terry, nor Davis, nor any combination thereof teaches the use of a wavefront sensor which comprises a sub-array of pixels to control the illumination intensity of individual lenslets of the lenslet array as argued in pages 7 & 9 of the remarks. Therefore, claims 1,3-22 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
